
gaesd Documentation

Release 0.7.1

francis.horsman@gmail.com

Aug 24, 2017

Contents:

1	Indices and tables	3
----------	---------------------------	----------

Until an *official* python SDK arrives...

Create, manage and upload Stack-Driver compatible Traces, Spans and nested spans to Google Stack Driver from AppEngine or anywhere else.

See the Stack Driver api [here](#)

The main components of **gaesd** are

1. sdk
2. trace
3. span

There are also decorators, helpers and utils available.

Some common use-cases are covered in the examples (T.B.D)

CHAPTER 1

Indices and tables

- `genindex`
- `modindex`
- `search`
